Video/Speaker Observation Form

Video Title/Speaker: **Tyler Martinez**

Subject summary: Tyler told us about his job and how coding helped him with his job as well. He also gave us some questions and problems for code which I thought was pretty cool.

Coollest thing you learned: Coding can even help with business.

What you disliked: He didn't really concentrated in one topic it was pretty broad. However, the overall was pretty cool and that he was also a former student at CV.
